Poems are pieces of writing in which words are selected for the way they sound, the sense of rhythm they create and the pictures and emotions they generate in the reader's mind. There are many kinds of poems (see Appendix, *Types of Poetry*, p.28, 29). *Florence and Drago* is an example of a rhyming narrative poem which tells a story. However, it is not necessary for a poem to rhyme. Students will enrich and extend their vocabulary through reading *Florence and Drago*. They will be supported as they work towards creating a **simple descriptive poem of four or six lines which incorporates similes**. When writing poetry, students will have the opportunity to examine their creativity, imagination, emotions and freedom of expression. Students are encouraged to use their own experiences to create similes in their poems about imaginary dragons. Poems will be published on a three dimensional shape.
