

## **The Speaking to Writing (S2W) Learning Hub Event #1**

On Saturday, 19 October 2024 the Speaking to Writing (S2W) Learning Hub launched in a breakout session during the **Aspirations for Life – Inspiring Learning and Well-being: Values Education in English Language Education** event at the EDB Kowloon Tong Education Services Centre.

This session acted as an introduction to the S2W Learning Hub.

Participants heard from an S2W “Seed” project school about the impact of this innovative approach on igniting students’ and teachers’ love for writing. The session also looked at how values education has been promoted through the adaptation of teaching materials and texts. Participants discovered how S2W schools are planning and teaching their own units and how Learning Hub schools will be equipped to do this themselves.

The session prepared participants for the online training to be provided by expert literacy consultants and teacher trainers from Australia in November 2024.
